1 Astragaloside IV protects ATDC5 cells from lipopo through regulating miR-203/MyD88

Li D, et al. Pharm Biol 2020. PMID 31906765

CCK-8 and flow cytometry were used to detect cell activity and a western blots, and ELISA were performed to detect expression cytokines. Results: Based on the 50% inhibiting concentration (IC₅₀), there was no significant difference of AS-IV (0 to 15 μg/mL) on cell viability. ...Further, MyD88 was a target gene of miR-203. ...negatively regulated by miR-203. Knockdown of MyD88 inhibited LPS-induced inflammatory damage by inhibiting the NF-κB signal pathway. Discussion and conclusions: AS-IV protects ATDC5 cells against LPS-induced damage mainly via regulating miR-203/MyD88. ...

Complementary and Alternative Medicine Treatment Options for Otitis Media: A Systematic Review

Tal Marom, Paola Marchisio ... Susanna Esposito + expand

PMID: 26871802 PMCID: PMC4753897 DOI: 10.1097/MD.0000000000002695

Abstract

Otitis media (OM) has numerous presentations in children. Together with conventional medical therapies aimed to prevent and/or treat OM, a rising number of complementary and alternative medicine (CAM) treatment options can be offered. Since OM is common in children, parents may ask healthcare professionals about possible CAM therapies. Many physicians feel that their knowledge is limited regarding these therapies, and that they desire some information. Therefore, we conducted a literature review of CAM therapies for OM, taking into account that many of these treatments, their safety and efficacy and have not been scientifically demonstrated. We performed a search in MEDLINE (accessed via PubMed) using the following terms: "CAM" in conjunction with "OM" and "children". Retrieved publications regarding treatment of OM in children which included these terms included randomized controlled trials, prospective/retrospective studies, and case studies. The following CAM options for OM treatment in children were considered: acupuncture, homeopathy, chiropractic, yixitong, ear candling, vitamin D supplement, systemic and topical probiotics. We reviewed each treatment and described the level of scientific evidence of the relevant publications. The therapeutic approaches commonly associated with CAM are usually conservative, and do not include drugs or surgery. Currently, CAM is not considered by physicians a potential treatment of OM, as there is limited supporting evidence. Further studies are warranted in order to evaluate the potential value of CAM therapies for OM.

NUEVA FORMA DE RECUPERACIÓN

mejora 1

Además del conocido mapeo automático de términos a MeSH, el nuevo PubMed incluye mejora de sinónimos, incluido el plural

[EJEMPLO](#)

mejora 2

Mapeo mejorado entre la ortografía británica y estadounidense, por lo que no tiene que preocuparse por incluir las formas variantes en su búsqueda

[EJEMPLO](#)

mejora 3

Truncamiento ilimitado en vez de solo las primeras 600 variantes de una raíz

[EJEMPLO](#)

ACCESO DESDE DISPOSITIVOS MÓVILES MEJORADO

Incluso con la capacidad de vincular desde dispositivos móviles a suscripciones de bibliotecas

A screenshot of the PubMed.gov website on a desktop browser. The header includes the NIH logo and the text "U.S. National Library of Medicine". The main content area features a search bar with the text "Search PubMed", a "Log in" button, and a description of PubMed's database. At the bottom, there is a "Learn" section with a lightbulb icon and a "About PubMed" link. The browser's address bar shows "ncbi.nlm.nih.gov".

A screenshot of the PubMed.gov website on a mobile device. The search bar contains the text "Radiation induced brachial plexus neu". Below the search bar, it shows "67 results" and "9 articles found by citation matching". Two article titles are visible: "Role of Surgery in Radiation Induced Brachial Plexus Neuropathy" and "Radiation-induced Brachial Plexus Neuropathy: A Review". The mobile interface includes a hamburger menu icon, a "Log in" button, and a bottom navigation bar with icons for back, forward, home, and search.

Recomendaciones

¿Busca algunos buenos artículos sobre un tema?

- Ingrese sus términos de búsqueda en la ventana de búsqueda
- Sea específico
- No se necesitan etiquetas de búsqueda ni uso del operador AND
- Evite buscar con términos entre comillas
- Evitar el truncamiento (*)
- Formato de salida "Best Match"

Si necesita hacer búsquedas expertas contacte con un **bibliotecario**
